Comment	Reviewed and confirmed for demonstration.

Evidence Fingerprints

#	Filename	Bytes	SHA-256 Fingerprint
1	sample-invoice.pdf	123456	aaaaaaaaaaaaaaaa...aaaaaaaaaa

Verification Boundary

88.tr verifies record integrity and evidence fingerprint matching, not factual truth; it does not verify legal effect, issuer authority, regulatory approval, audit assurance, professional determination, or evidential sufficiency. Full machine-readable details are included in record.json, record.schema.json, signature.txt, evidence_hashes.txt, public_key_info.txt, and verification-instructions.txt.

Customer-retained model: customers keep original evidence files, certificate PDFs, and record packs. 88.tr verifies record integrity and evidence fingerprint matching, not factual truth. Verify this record pack at the Public Verify URL shown above. Not legal advice, certification, audit assurance, regulatory approval, official authorization, or permanent archive.
